

Evangelos Poneris

Full Stack Software Engineer

Baltimore, MD

(443) 301-9719

evangelos.poneris@gmail.com

EXPERIENCE

The MIL Corporation, Washington DC *Software Engineer*

MARCH 2019 - PRESENT

Built cloud native applications for the Department of Commerce to help aggregate and share data efficiently.

Started building a copyright registration system for the Library of Congress using Lean/Agile development principles.

Pivotal Labs, Washington DC *Software Engineer*

FEBRUARY 2018 - MARCH 2019

Provided consulting services to the US AirForce in TDD, Agile, Lean, and Extreme Programming (XP) methodologies. Lead and mentored a team of Engineers in delivering system features through iteration.

General Dynamics Health Solutions, Baltimore, MD *Principal Software Engineer*

NOVEMBER 2014 - JANUARY 2018

Maintained software that generated rates related to the quality of care provided by various health insurance companies. Those rates were used by Medicare and private companies to compare providers.

Johns Hopkins Hospital, Baltimore, MD *Database Administrator*

NOVEMBER 2014 - JANUARY 2018

Supported a financial reporting system by creating new features and automating the generation of financial reports. Created ETL processes for data integration with other systems.
